About Double Degree Programme.....

AIT's **Telecommunications (TC) program** in partnership with University of Oulu, Finland offers Double Degree Master Programme in Wireless Communications, giving you leading education in wireless technology in Thailand and in Europe.

The International Double Degree Master's Programme on Wireless Communications Engineering (WCE) is a two-year full-time programme focusing on 5G and beyond. The programme provides the students with knowledge and skills in fundamentals and applications (e.g. IoT) of wireless networks and standardisation activities. The solid foundations provided are further strengthened with students' exposure to the industry environment and on going research projects at Centre for Wireless Communications (CWC).

Internship Opportunity

At least 2 months internship required during the programme

Research Focus Areas:

5G, IoT, Medical and Health Networking, Radio Technologies, Specialised Wireless Solutions, Signal Processing and Optimisation, Secure Virtualised Networks, and Radio Frequency Designs
