

Training: Energy Efficiency using RETScreen

5th April 2010

8.00am – 4.30pm

AIT Conference Center

Asian Institute of Technology

The Asian Institute of Technology, Thailand, in co-operation with RETScreen International, Natural Resources Canada will conduct training on “Energy Efficiency using RETScreen”. The focus will be on industrial and residential sector analysis.

The training will focus on using RETScreen to carry out energy efficiency project analysis, estimate the savings and to conduct greenhouse gas emission analysis. This will be through examples and hands on analysis by the participants. The training will be useful for those who would like to learn how to use RETScreen to assess the viability of energy efficiency measures for residences and industrial facilities.

All those interested to attend the training are invited to submit the completed registration form.

Last Date for registration:

26 March 2010.

Only a maximum of 25 participants will be invited.

Registration Fee: Baht 2,000
