

Seminar on Low Carbon Initiatives of Cities for GHG Mitigation and Adaptation to Climate Change

**16 -17 May 2011
Sofitel Centara Grand, Bangkok, Thailand**

The Asian Institute of Technology (AIT), Thailand, has initiated a two year “Action towards Resource-efficient and Low Carbon Cities in Asia” program (<http://lcc.ait.asia>) with support from the French Environment and Energy Management Agency (ADEME) to assist a number of small and medium cities of Asia in their efforts towards low carbon society through improved resource use efficiencies leading to environmental sustainability.

As part of the activities, AIT is organizing a two days Seminar on “Low Carbon Initiatives of Cities for GHG Mitigation and Adaptation to Climate Change”.

Objectives

This seminar aims to:

- a. Share the knowledge towards low carbon society through improved resource efficiency and promoting environmental sustainability
- b. Exchange of information and experiences regarding climate change issues in European and Asian cities

Who should attend?

The seminar will be useful to city authorities or other stakeholders (research/university/NGOs) who are working on city planning and policy level, and have an interest to implement activities to mitigate climate change at the city level.
