

International Expert Forum

Mainstreaming Resilience and Disaster Risk Reduction in Education

Integrating SDG, SFDRR and UNFCCC Paris Agreement

1 - 2 December, 2017

Call for ABSTRACT

IMPORTANT DATES

Call for Abstracts Open:
23 May, 2017

Abstract Submission Close:
15 July, 2017

Abstract Notification:
10 August, 2017

Registration Open:
15 August, 2017

Full Paper Submission:
30 September, 2017

International Expert Forum:
1 - 2 December, 2017

Venue:
Asian Institute of Technology, THAILAND

Thematic Areas for Abstract

- Disaster Risk Governance
- Disaster Education and Risk Communication
- Disaster Risk Engineering, Science and Technology
- Humanities, Social Science and Risk Reduction
- Sustainability, Development and Disaster Risk

Abstract should be submitted through email to:
DRECB-DPMM@ait.asia

Organised by:

Disaster Preparedness, Mitigation and Management (DPMM)
Asian Institute of Technology, THAILAND

In Association with:

University of Newcastle, Australia
Universiti Sains Malaysia, Malaysia
University of the Philippines, Philippines
National University of Civil Engineering, Vietnam

International Expert Forum

Mainstreaming Resilience and Disaster Risk Reduction in Education

Integrating SDG, SFDRR and UNFCCC Paris Agreement

Disaster Preparedness, Mitigation and Management (DPMM) at Asian Institute of Technology, Thailand through its interdisciplinary approach addressing the cross cutting issues of Disaster Risk Management and Sustainability in the context of engineering, architecture, natural and social sciences to manage and minimize the effects of disasters in the region.

DPMM, AIT along with University of Newcastle, Australia under Australia-ASEAN Council (AAC) Grant for "Disaster Resilience Education Capacity Building in South-East Asia" is organising an "International Expert Forum on Mainstreaming Resilience and Disaster Risk Reduction in Education" during 1 - 2 December, 2017. This International Forum is an holistic approach to integrate Sustainable Development Goals, Sendai Framework for Disaster Risk Reduction (2015-2030) and UNFCCC Paris Agreement to address the regional challenges on Mainstreaming resilience and DRR.

The objectives of the forum is to develop robust regional network with the collective capacity to lead initiatives that protect society from shocks to physical, socio-cultural, politico-economic and natural systems. The Expert Forum will provide an opportunity to develop a Higher Educational Institution Platform on DRR to address the cross cutting issues on Disaster Risk Governance and also understanding regional challenges that result from complex problems generated by natural hazards and human induced threats. The forum will create regional synergies between leading higher education institutions engaged in education and research on DRR and Sustainable Development, Development Agencies, Govt. and Non-Govt. Stakeholders to proactively address disaster risk and build resilience through education.

Registration and More Information: <http://dpmm.ait.ac.th>

Target participants

Academicians, Scientists, Engineers, Research scholars, Development Agencies, Practitioners, Policy Makers, Private Companies, Govt. and Non-Govt. Organisations.

Abstract Submission

The Organizing Committee is inviting the submission of abstracts (about 500 words) in English and One Page brief biographies of the author(s) by the deadline indicated.

Submission Guidelines

Abstract should be written in English using MS Word format. The abstract should be preceded by the title of the paper, Thematic Area, the name(s), institutional affiliations of the author(s) and contact detail.

Publications

Presented Abstracts will be published in proceedings and selected speakers will be invited to submit their full paper for publication in an edited book to be produced by an international publisher.

All queries on International Expert Forum should be addressed to: DRECB-DPMM@ait.asia
